

BOLONGER OFF TO JERSEY

RESULTS OF THE FRENCH ELECTIONS.

THE NEW CHAMBER REPUBLICAN BY A LARGE MAJORITY—A PLEA FOR PEACE.

Paris, Oct. 7.—It is officially announced that the new Chamber of Deputies will be composed of 362 Republicans and 205 members of the Opposition. The Republicans comprise 236 Moderates and 126 Radicals. The Opposition consists of 109 Royalists, 58 Bonapartists and 47 Boulangists.

According to another estimate, the new Chamber will have 365 Republicans and 211 Opposition members. This estimate includes the Colonial members.

The "Times," commenting upon the fact that the Moderates, headed by MM. Say and Ribot, have a dominating influence in the Republican party, says it considers the time propitious for a policy of reconciliation toward all other classes, with a view to a consolidation of the Republic and the permanent establishment of peace and order.

Berlin, Oct. 7.—The "North German Gazette," commenting upon the French elections, says the attack upon the fundamental principle of the Republic and the permanent establishment of peace and order is finally repulsed.

HAWAIIANS WANT TO BE ANNEXED.

THE ISLANDERS ANXIOUS TO GET UNDER A WING OF THE AMERICAN EAGLE.

San Francisco, Oct. 7 (Special).—Private letters received by prominent merchants from Honolulu show that the annexation project is strong in Honolulu. The islanders desire to be under the wing of the American eagle. These letters state that the recent insurrection grew out of a strong feeling in favor of a change of Government and an escape from the strong hold which British capital is gaining on the islands. A number of men who were known to be dissatisfied left Honolulu just before the riot so that they should not be compromised, and these men do not think it safe to return. The natives are greatly dissatisfied with the present Government, as it has made no reforms in their interest, and the Chinese still continue to pour in and are crowding Hawaiians out of all trades and petty business. These letters state also that the chief argument which will be used in favor of asking the United States to form a protectorate over the islands is that the present reciprocity treaty favors the British merchants more than Americans, as it gives the many enterprises of the island founded by British capital free American markets.

Hawaii's debt is \$2,000,000, all of which is held in London, while in three railroad enterprises, another \$2,000,000 has been invested. The whole \$4,000,000, forming the lien on public and corporate securities, besides this, English and Scotch capital has been heavily invested in sugar plantations and other schemes. These conversant with affairs on the islands say that annexation or a protectorate by the United States is sure to come before long, and that it is in the interest of the islanders that it should not be adopted there will be serious trouble on the islands.

THE NEW-ENGLAND FISHING FLEET.

Ottawa, Ont., Oct. 7.—The Department of Fisheries is advised that the New-England fishing fleet, which for the last few weeks had carried on a profitable fishing for mackerel with hook and line in the vicinity of the Magdalen Islands, has returned to Prince Edward Island and will continue fishing operations as long as the weather remains favorable. None of the vessels can report extraordinary catches, but the fish taken are as a rule large and of fine quality. The falling off in the mackerel catch last season and this is alleged to be due to the destructive methods pursued by American fishermen with their purse seines and other devices for the wholesale slaughter of fish.

WHY MR. BURKE LEFT THE TEUTONIC.

THE EX-TREASURER OF LOUISIANA INSISTS THAT HE IS EAGER TO FACE HIS ACCUSERS.

London, Oct. 7.—E. A. Burke, ex-Treasurer of Louisiana, who sailed for New York on the Teutonic, but disembarked upon the arrival of the steamer at Queenstown and returned to London, says that when he arrived at Queenstown he found awaiting him there a number of telegrams from Matthew Robins, his London agent, insisting that he return to attend to negotiations relating to his Central American and other properties, which Mr. Robins said were imperiled through the haste in which he had taken his departure. Mr. Burke says that he also received cable dispatches from his principal in New York, who likewise urged his return, and that he decided to leave England, or to put it in a safe way for completion.

Mr. Burke sent his family on the Teutonic, and says that he will expedite the business connected with his American trusts, and transfer his powers of attorney, etc. Both Mr. Robins and himself, Mr. Burke declared, are confident that they will complete all their arrangements and put everything in order so that Mr. Burke can sail within a week. Mr. Burke says he has not had any communication from the State officials of Louisiana. Referring to the alleged confession of the reporter, Stansbury, to the effect that he had pledged illegal bonds for him, Mr. Burke asks any one credit his employing a lad, a junior employee on his paper, as a trusted confidant to raise \$200,000 for him, or to employ a clerk to handle his business in any confidential business. Mr. Burke says he trusts he will succeed after his return to the United States in discovering how the illegal bonds got about, and declines, meanwhile, to make the slightest suggestion directing suspicion toward any one. He declines to cable dispatches from Louisiana, and others directing the present inquiry are animated by political animosity, and he eagerly awaits the moment when he will confront them in New-Orleans.
